INTRODUCTION

Welcome to Abundance DeFi!

In this presentation you will get to know more about us and why we have put our Heart and Soul in this Project. We have built Abundance DeFi with a strong conviction to Create something lasting, where we don't have to worry about running out of funds or losing our hard earned money to scams

- Many of us have been working online for years, we've learned that there are always problems with online projects. It could be a high ROI project with daily percentage returns `which finally dries up Or the project could have worked well, but the team decides to leave the project all together.
- Sometimes when we try to withdraw funds, they don't reflect in our account and are pending. We could end up having to pay taxes and lose fees for unmet goals or delays. It's not fair to miss out on our payment when we have to juggle both the left and right sides.
- That's where Abundance Decentralized Finance comes in to help you! As the world of cryptocurrency continues to evolve, Abundance DeFi has emerged as a promising and innovative sector.

What is ABUNDANCE DeFi ?

- Abundance Defi is a Decentralized Finance (DeFi) dApp that offers a unique opportunity for individuals to earn exclusive rewards and access numerous opportunities to earn online.
- With 10 package entries starting from \$2.50 to \$2500.00 USDT BEP20, Abundance Defi's dApp is accessible to everyone, regardless of their financial capabilities.
- Abundance DeFi project offer new possibilities for individuals to engage in financial activities without the need for intermediaries.

What Sets Abundance DeFi Apart?

Abundance DeFi project is set apart by its audited Smart Contract which can be best described as a crowdfunding program executed on Binance Smart Chain , this project is equal to none.

- We are here to ensure that those who wish to take control of their lives and make positive changes have a genuine opportunity to do so.
- By joining us, you will have multiple ways to earn and learn. One of them is by building your downline and earning instant commissions.
- Another way is by having an active upline, which will provide random under spill.
- Additionally, besides receiving commissions directly in your wallet, you will also receive our WEALTH Token.

We have created a token that will be given away with every direct signup and level unlock in our project. When money comes in, 20% of the funds will automatically be used to buy 10% USDT (BEP20) and 10% WEALTH Token

FOUNDER

A dedicated family man and an expert in the field of cryptocurrencies. He is committed to sharing his knowledge with the world and believes that the world of crypto has the potential to create a more equitable and decentralized financial system.

What Are some of the Advantages of Decentralized Financial system ?

The term Decentralized Finance (DeFi) is an umbrella term for various applications and services within the world of blockchain.

- DeFi expands the use of technology with an aim to replace the traditional financial system with one that has no central authority.
- Smart contracts, decentralized applications (dApps) and blockchain technology are the backbone of the system.

Primary Features of Decentralised Finance [DeFi] system :

- It does away with the usage fees that banks and other financial institutions impose.
- Instead of depositing your money in a bank, you keep it in a secure digital wallet. E.g. Trust or MetaMask Wallet
- DeFi can be used by anyone with an internet connection without authorization.
- Fund transfers can be completed in seconds or minutes

What Are the Differences Between Decentralised Finance System & Traditional Finance System ?

DECENTRALISED FINANCE SYSTEM	TRADITIONAL FINANCE SYSTEM
You control your assets	The 3 rd party or Bank is the main supervisor
You can be anonymous while acting in DeFi	You have to share your personal Data
Transparency: You can check a product's Data and how the system works	Trust: You can't easily check the loan history, a record of the managed assets e.t.c
High accessibility: The only entry requirement is an internet connection	Accessibility is limited. You have to go through the documentation process and other barriers
Transactions happen in minutes	Payments can take days due to bureaucracy
The DeFi space operates 24/7	Institutions work for a limited period of time

What are the Benefits of Investing with Abundance DeFi ?

Here are some benefits you will get when you invest in the Abundance Defi project.

- **Financial Inclusion:** The Abundance DeFi project provides access to financial services for individuals who are underserved or excluded from traditional banking systems.
- **Transparency and Security:** The Abundance Defi project offers transparency through open-source code and audited smart contracts, providing participants with a secure environment for their assets.
- **Higher Returns:** Abundance DeFi project offers a bigger commission structure compared to traditional financial instruments, because no percentage of the profit is going to the team. While they are building the foundation of their ecosystem which will revolve around crypto marketing earning and learning. This is being developed as we speak and will be launching part by part.
- **Control and Ownership:** On Abundance Defi, participants have full control and ownership over their assets, eliminating the need for intermediaries and allowing individuals to be their own bank.

Our Solution to online money making struggles

We have combined multiple strong points that we have come to love in the crypto world!

- One of our unique features is earning instant commissions directly to our wallet, with no need for withdrawals.
- Abundance DeFi is also the first project to reward you with a Token that grows alongside the project, without being manipulated by outside forces with ulterior motives.
- Our commission structure spans 10 different levels, starting from just \$2.50 USDT (BEP20), making it an affordable option no matter where you are.
- We also have an automatic cycling system in place, where the 4th signup travels down a level, ensuring that you can earn commissions for the work you deliver (the 4th signup is placed randomly under one of your direct downlines).
- Furthermore, our levels do not close over time, once opened they remain open forever, providing a reliable and continuous earning opportunity.
- We operate on a reliable chain with low gas prices and fast transaction speeds.
- Additionally, our team is transparent and does not hide behind anonymity, and we are committed to building multiple projects that support abundance

Abundance Defi Package Levels

Package Levels

As we aim to create a project that satisfies the masses, a lot of thought has gone into the distribution of tokens. We have decided to go with solid numbers to ensure that our code functions properly and everyone receives fair treatment. The price of the level will be on the left side, while the amount of coins you receive upon joining our project will be on the right side.

Pkg 1: \$2.50	Tokens Distributed: 250
Pkg 2: \$5.00	Tokens Distributed: 500
Pkg 3: \$10.00	Tokens Distributed: 1000
Pkg 4: \$25.00	Tokens Distributed: 2500
Pkg 5: \$50.00	Tokens Distributed: 5000
Pkg 6: \$100.00	Tokens Distributed: 10000
Pkg 7: \$250.00	Tokens Distributed: 25000
Pkg 8: \$500.00	Tokens Distributed: 50000
Pkg 9: \$1000.00	Tokens Distributed: 100000
Pkg 10: \$2500.00	Tokens Distributed: 250000

WEALTH TOKEN

OUR TOKEN CAN NOT BE BOUGHT BY ANYBODY ELSE BESIDES THE AUTOBUY CONTRACT

We are committed to preventing manipulation from the very beginning and ensuring that organic price growth occurs. Additionally, as an extra commission on the first level, we will be offering Tokens to reward those who actively contribute to the success of the project.

Token Commission Structure

Package / Package Amount	Tokens
Package 1 \$2.50	15
Package 2 \$5.00	25
Package 3 \$10.00	50
Package 4 \$25.00	100
Package 5 \$50.00	200
Package 6 \$100.00	500
Package 7 \$250.00	1250
Package 8 \$500.00	2000
Package 9 \$1000.00	4000
Package 10 \$2500.00	10000

We have carefully considered the token dynamics to prevent excessive selling pressure and potential price decline. As a result, we have chosen to distribute our token as a reward for making a direct signup, incentivizing team building, and promotion. The price of the level will be displayed on the left side, while the number of tokens you receive upon making a signup will be indicated on the right side.

The AUTO-BUY feature of the token will be set at 20%, ensuring more significant price growth. This will consist of 10% USDT (BEP20) and 10% WEALTH Tokens, combined to add liquidity. Additionally, 4% of the USDT income will be reserved for marketing expenses, which will be spent based on community demands. This could include mass advertising, hiring a professional agency, or partnering with influencers.

Commission Structure

LEVEL	Reward %
1	39%
2	12%
3	7.5%
4	4%
5	3.5%
6	3%
7	2.5%
8	2%
9	1.5%
10	1%

What happens with commission outside of the structure of packages?

When the commission structure is not yet 10 levels deep, or the person has not unlocked all packages and invites somebody who invests more than them (ranging from \$2.5 up to \$2500, which is the entry amount), the money outside of the commission structure will be divided over 5 wallets. This division will be transparent and used to create income and possibilities for the community.

This will be equally divided like this:

- %20 Forex Copy Traders
- %20 Crypto Copy Traders
- %20 Yield farming /Stables /BTC /ETH
- %20 Developing Abundance Ecosystem
- %20 Marketing /Management /Paying Moderators /Upkeep of site /Many other things

OUR GROWING ECOSYSTEM

What to expect from the things that will be added to the ecosystem?

As we are committed to ensuring the safety and skillset development of everyone, we have some exciting additions in store for those working with us. Our ecosystem will initially focus on sharing information and will include a way for all our community members to safely interact and guide each other in case of any issues. There is one note I would like to mention, and that is that we are happy to offer gamification, where rising in levels will earn you XP and positive actions will be rewarded. The first addition to our ecosystem will be a Forum, where people can ask questions, seek and offer support.

The second addition will be a place where people can write reviews, and learn about different ways to work and stay safe. There will also be an educational component where people can test their knowledge. In due time, more and more functions will be added as we have many ideas and a skilled developer team ready to execute them! Another addition we will implement is a PTC-Task site, where our members can place ads and links for others to watch or join, and make money by actively exploring our ecosystem.

Additionally, we will be releasing a roadmap soon to provide more insights into our plans for the future.

We will also be including a Social-Exchange feature. In short, if you're looking for members for your Instagram, Facebook, Telegram, or YouTube, look no further as we have a community of REAL PEOPLE ready to assist you in your growth for just \$0.05 per person.

With us, you are ensured of organic growth. If you have an airdrop that you want members for, simply post it and get signups for \$0.05 per signup.

A place where you can learn to build yourself as a brand. Here, you will gain insights into different ways of advertising, how to effectively communicate with people, and develop basic social skills to build long-term relationships.

We will explain the options that professionals use, such as mass marketing, mailing lists, freelancers, Fiverr, banner ads, and more, in simple terms. Additionally, this section will be open for guest writers as we combine our collective expertise.

We are fully transparent about our revenue generation methods, how much we earn, and how much we give back to the community. We also provide a platform where you can hire people to perform various tasks, ranging from creating a PDF, editing an image, or creating something based on your specifications. We have a Task wall and survey area where individuals can earn some extra income by completing tasks. Additionally, we offer advertising options on our site, such as banner ads placed in different sections, to showcase your legitimate offerings to our entire community.
